

Electric Vehicle Triathlon Proxy Event (EV Triathlon)

Entries are invited for the above competition to be held in the United Kingdom (Edinburgh) in May 2021. The vehicles allowed are the 1:32 scale models of the Jaguar I-Pace manufactured by Scalextric (Analogue). The limitation to one type of vehicle will make the event accessible to racers of all skill levels.

The event will consist of three separate activities – Rally Stage, Sprint Circuit and Drag Strip. These will be held on appropriate plastic tracks namely: Ninco/Policar hybrid, Carrera Evolution and Scalextric Start respectively. Each layout will use the Race-Coordinator system for robust and consistent timing to one thousandth of a second. A Concours D'Elegance will be held for all vehicles.

Event Format

The event administrator will apply removable number decals such that the cars can be uniquely identified during the event. Numbers will be allocated as entries are committed with payment. Entries must be lodged via the official forum thread.

Vehicles will be run individually by one driver. Performance will be judged by the recorded time that each vehicle takes to complete each of the courses.

Concours judging will be simply based upon attractiveness.

The event segments will be preceded by Shakedown runs to ensure that the vehicles arrive in good order and comply with the regulations. Initial basic feedback will be provided for each vehicle.

Track Technicalities

Electrical supply voltage – 11volts DC. Carrera black controller with dynamic braking active.

Track layout details will be presented in the next few days.

Vehicle Regulations

Scalextric Jaguar I-Pace models (C4042, C4064 and C1401 (set vehicles)) as manufactured by Hornby except for items listed in the “Free-choice” table below.

Entrants must write their name or ID on the underside with a Sharpie or paint of some type.

The standard traction magnet can be retained in its pocket, but no additional traction assisting magnets are allowed.

The interior tray of all cars must be in place.

The glazing unit (clear or dark) must be in place.

Original tyres and wheels must remain in use – these may be trued and glued.

The wheels and tyres already fill the wheel apertures and so no adjustment of track measurement is allowed nor expected (ie the tyres must not be visible when viewed from above the body sides)

Free-choice items:-

- 1 Guide-blade and pickup assembly (to be compatible with all the identified track systems – note: Ninco slot depth = 6mm.
- 2 Wiring from pickup to motor may be replaced and suppressor removed.
- 3 Weight may be added but must be within the body.
- 5 LEDs and associated wiring (may be removed, fitted or replaced).
- 6 DPR plug/socket and associated wiring may be removed or replaced.
- 7 Paintwork and decoration (heritage/fantasy liveries encouraged).
- 8 Navigator (head and shoulders) and auxiliary driving lights welcome but not compulsory.

Entry requirements

All communication must be through the Slotracer.Online site. The two communication channels are:

1> Private Messages to user I.Pace 2> postings on official forum threads.

Whilst all normal precautions and care will be adopted, the organisers cannot guarantee that competing vehicles will not suffer damage.

Timeline

Entries must arrive at the start location (Edinburgh, Scotland) on or before 10th May 2021. The event segments will be run over a 3 week period with the order of events planned as Sprint, Rally, Strip (subject to prevailing weather conditions as the Sprint track is outdoors)

Fees

There is no entry fee as such.

Entry fees will be used to cover shipping vehicles back to the entrant/owner on completion of the event. Where the fee paid exceeds the actual cost by more than 2 GB Pounds then a refund will be made. Equally when the fee paid is below the actual amount, a request for a to-up will be made. The amount due (via PayPal) will vary upon the shipping rates and are listed as below. The UK international shipping rates still seem a bit fluid since Brexit.

Awards and Judging

An overall winner – the overall winner will not be eligible for the category awards.

Gold, Silver and Bronze in each discipline category.

Each entrant can only win one award, being the greater level and with the priority of 1-Overall, 2-Rally, 3-Sprint, 4-Drag.

The Concours aspect is separate from the performance events.

Protests

The judge's decision is final.

Force Majeure

The administrator reserves the right to amend the event format if unforeseeable circumstances arise.

Fees (to cover shipping home)

Country/Region	Amount (GB Pounds)	Comment
United Kingdom	4.00	
Norway, Sweden, Finland	10.00	
France, Netherlands, Belgium, Germany, Poland, Italy, Spain, Portugal, Denmark	8.50	
North America	12.50	
Others	Please message administrator	

Questions and Answers

Questions concerning the event can be raised on the <EV Triathlon Event Info – Official> thread on SlotRacer.Online or via private message to user I.Pace on that forum. Answers provided by p-m may also be published on the thread.

Event Administrator – Leo Capaldi (Scuderia Turini)
