

Rally Cars Slotting – New cars 2nd Testing Day
(From standing start)

Team	Cars	T1 (sec)	T2 (sec)	T3 (sec)	Comments
Scott Sports	Ford Escort MK1	10.05	10.16	10.24	Very smooth and quite nippy. I had to glue in a loose wheel bearing
	Renault Clio	10.32	10.23	9.89	Great little car should do well on the Rally Stages
Harrison's Racers	Lancia 037	9.51	9.72	9.46	Popular Rally choice normally, wide and fast very smooth
	Subaru	9.86	10.06	10.24	Safe, stable running car
High Voltage	Subaru	10.23	10.33	10.22	Problem with rear tyres rubbing on inside wheel arches. Makes the car difficult to control. Needs attention, contact team
Team Alaric	Subaru	9.96	9.84	9.84	Only Rally car with lights, great looking car, very well presented and runs very smoothly
Mountain View	Hyundai	9.37	9.43	9.28	Another great model from the stable, very smooth and stable
	Lancia Delta S4	10.02	9.97	9.81	Less predictable, initially tyres were breaking up a bit, lots of rubber coming off with taping but better now.
Brumos RSR	Porsche 914/6	8.29	8.89	8.77	Initially car travelled in the wrong direction, so it was agreed with team to swap the wires over in the guide. Loose rear screws were replaced, But excellent running car
	De Tomaso	8.46	8.53	8.60	A little too smooth and predictable. One to check for Magnetic Traction. But extremely fast car
Team Cube	Ferrari 308	9.77	9.63	9.56	A little sluggish, but excellent grip, should do well on the Rally stages
	Triumph TR7	-----	-----	-----	Not run as the body had seperated from the chassis. Returned to owner
RoadRunners	Fiat 131 Abarth	9.18	9.11	8.96	1st test run -Great running car of mine, perhaps needing a little weight in the front.

Re -run on earlier cars

BARacer	Triumph TR7	9.44	9.30	9.35	Seemed much smoother today
	Citroen C4	9.51	9.48	9.38	Feels less stable on corners.
Lifeboats Racing	Audi Quattro A2	10.57	10.79	10.83	Feels a little unstable around the corners
	Ford Cortina	10.95	10.74	10.84	Improved stability after some under bonnet work by the home garage
Ruscillo Racing	Audi Quattro A1	10.46	9.72	9.87	Very stable on cornering, should be good on the Rally Stages
	Citroen C4	9.15	9.33	8.88	Seemed much faster today, great on standing start
Savage GT	BMW M1	8.30	8.42	8.24	Just perfect running car
	Porsche 914/6	8.87	9.16	8.58	Great but not quite as good as it might have been ?
Novissime Iterum	LandCrab	10.77	10.96	11.11	Some under bonnet work to stop tyres rubbing, but not any faster. Guide needs some attention to improve contact, too sloppy perhaps in chassis
	Audi Quattro A2	10.09	10.19	10.10	Good runner on the flat but will it be as good on the Rally stages.
Bangers Racing	Metro 6R4	9.39	9.27	8.93	Very fast for sure, will be a good all rounder I think
	Citroen Saxo	9.03	8.88	8.99	I want one of these, great small car will be good around the Rally tracks
RoadRunners	Porsche 356	10.30	10.50	10.37	A little disappointed, slower than I expected on the standing start
