## **Entries**

Only single car entries are accepted for Events 2 & 3.

2 car entries will be accepted for Event 1 where the two cars have different chassis construction. (eg Revoslot & 3d chassis cars, but other chassis construction variations would also be accepted)

## **General rules**

G1) Cars must be 1/32 scale models of Touring cars.

G2) All parts must be commercially available.

G3) Cars may be driven by two or four wheel drive.

G4) No traction magnets allowed.

G5) Ballast may be added but must be fixed securely to the chassis and not protrude below the lowest part of the chassis / body line and meet the minimum track clearance requirement.

G6) Cars must be decorated inside and out with an appropriate livery.

G7) Body mount screws must be covered.

## **Bodies, Windows and Interiors**

B1) Cars must start and finish each stage with matching body, realistic glazing and plastic interior. No blacked out glazing.

B2) Bodies must be a fully detailed and painted hard plastic moulding or a 3d print. Lexan bodies are not allowed.

B3) 3d printed bodies can be used in Events 1 & 3 (eg Area TA71) but must be used with 3d printed chassis.

B4) Any scratch-build bodies must be within the same dimensional scale as any RTR available model within the Event lists. Oversize scratch-build models will be rejected.

B5) Minor bodywork trims and details such as mirrors, spotlights and aerials may be omitted.

B6) Interior must be of plastic or lexan and have a minimum of a driver & steering wheel. Printed card or paper is not permitted.

B7) Interior may be a lightweight alternative. Replacement interiors must be painted.

B8) Any factory fitted interior is legal

## **Chassis**

C1) Must be according to the Construction Class restrictions above.

C2) May be lightly trimmed.

C3) Separate of floating motor pods are permitted in all 3 events.

## **Guides**

G1) The guide blade must be max 7mm depth (without braid fitted), 1.8mm and 20mm length. Sharp points or additional localised thickening might result in cars failing to run on some plastic tracks. Thick wood track guides are not permitted.

## **Motors**

M1) Motors must be from the Eligible list as specified for each event.

M2) Motors must not be modified from manufacturer's specification.

M3) Motors must be mounted according to the Event requirements.

M4) Motors must not protrude below the chassis.

## **Wheels and Tyres**

W1) Wheels and tyres must not protrude beyond body. All 4 wheels must touch the track surface.

W2) Cars must comply with Max width across axle and outer tyre wall for each Event.

W3) All wheels must have appropriate plastic or resin inserts fitted at the start of each stage.

W4) Tyres may be trued, glued and coated, but must be dry to the touch at the start of each stage.

## **Spares**

S1) For all Events spares components (eg braids, eyelets, guides, wires, pinions, crowns, axles, stoppers, screws, nuts, springs, weights, paints and decals) are free choice.

## **Non Compliant Entry Cars**

I reserve the right to reject or request the entrant to modify or correct any car entered which does not comply to the Technical rules above. Alternatively a replacement car which is compliant can be accepted. Any car which has been returned thereafter the start of the proxy can be re-entered at the next round following the final approval.

A penalty can be applied to any car at the end of the series should a non compliance giving an unfair advantage be determined during the series after scrutineer inspection.
